

AMAN SAINI

B.Tech Computer Science Student | Gen AI & Machine Learning Enthusiast Pilani, Rajasthan | +91-9166985385

Email: amansaini151947@gmail.com

Portfolio: <https://amansaini0223.github.io/my-portfolio/>

GitHub: <https://github.com/amansaini0223>

LinkedIn: <https://www.linkedin.com/in/aman-saini-as-a77839315/>

Education:

- B. TECH CSE** | BK BIRLA INSTITUTE OF ENGINEERING & TECHNOLOGY, PILANI | CGPA: 8.22 (Till 5 Sem) | 2023-27
- HSC (12th)** | DURGA DEVI PUBLIC SR SEC SCHOOL, PILANI | Percentage: 77.40 | 2022
- SSC (10th)** | DURGA DEVI PUBLIC SR SEC SCHOOL, PILANI | Percentage: 78.17 | 2020

Technical Skills:

- Languages:** Python, Java(basics), C, C++, SQL.
- AI & Machine Learning:** Generative AI, LLMs (Gemini API), AI Agents, NLP, Prompt Engineering.
- Data Science:** NumPy, Pandas, Matplotlib, Scikit-learn.
- Tools & Platforms:** GitHub, Docker, AWS (EC2, RDS), Streamlit, Canva, VS Code.
- Core CS:** Data Structures & Algorithms (DSA), OOPs, DBMS, Operating Systems, MySQL.

Work Experience / Internships:

- Machine Learning and Gen AI Internship | Regex Software Services, Jaipur. (June 2025 – July 2025)

Projects:

1. Generative AI Chatbot (TechAI) | Regex Software Services, Jaipur

Tech: Python, Google Gemini API, Streamlit, AWS (EC2, RDS), Docker

- Architected** a high-performance Generative AI chatbot using Gemini Pro and Streamlit, providing seamless real-time interaction.
- Containerized** the application using Docker and managed deployment on **AWS EC2**, utilizing **AWS RDS** for robust backend data persistence.
- Enhanced NLP accuracy** by integrating custom Regex logic for dynamic query parsing, significantly improving response relevance and system reliability.

2. Inventory Management System | Personal Project

Tech: Python, MySQL, Pandas, Connector/Python

- Architected** a robust inventory tracking system using Python and SQL to manage product records, pricing, and real-time stock levels.
- Developed** optimized SQL queries for CRUD operations (Create, Read, Update, Delete) and automated low-stock alerts using Python logic.
- Engineered** a seamless database-to-Python integration to handle data manipulation and report generation, ensuring 100% data integrity.
- Version Control:** Managed the complete source code and database schema on GitHub for collaborative development.

Certifications:

- Python Programming | Infosys Springboard
- Artificial Intelligence | Infosys Springboard
- Machine Learning and Generative AI | Regex Software Services
- Google & Kaggle | 5-Day AI Agents Intensive Course

Achievements and Participations:

- Runner Up | Patrika race Competition
- Winner | Hindi Debate Competition
